Luke did a fab job and my wedding. The video was perfect from start to finish! Luke was great from the moment I got in contact, friendly, informative, professional and so dedicated to deliver exactly what we wanted. He went to my venue a number of time to get ideas and shots before the day and on the day he and his assistants caught every second. Luke obviously spent a lot of time putting the film together and it shows in the end result. I'll cherish my video forever as a fantastic memory of our day.

Look no further, these guys are the best!

Well... what can we say? Luke has created the most beautiful video of our wedding we could possibly ever ask for.

Luke has been professional from start to finish, communication has always been great so that he knew exactly what we wanted.

I've cried happy tears every time we have watched our video, and can't rate him high enough. Thank you so much Luke we will definitely recommend you to everyone we know for capturing our special day so amazingly 😊
